

ADHRS BACKUP OPTIONS

Backing up your lone ADHRS may be as simple as the mix of steam and non-TSO'd instruments in the author's RV-10, as depicted above. For those of us flying certificated aircraft and wanting a full-time, solid-state solution, L-3 Communications' Trilogy Electronic Standby Instrument (ESI-2000), below, does it all and incorporates a battery allowing a minimum of an hour of operation.
